

NATIONAL ALERT AND STATE OF READINESS

The Great Iranian Nation and the National Armed Forces of Iran

I will inform you of a conspiracy against you.

In the country's current "war-revolutionary" situation, and while the "coup" that brought **Mojtaba Khamenei** to power — a "dubious" coup — has intensified the regime's crisis of legitimacy, and the "inefficiency" of the coup government has reached its peak to the extent that it is even incapable of performing its "inherent duties" and is in a state of "failed state" or "bankrupt government"; while the "wounds" of the people from the massacres of **18 and 19 Dey 1404**, which according to statements by the Deputy Minister of Interior for Political and Security Affairs and the Secretary of the National Security Council were carried out "by order" of Mojtaba, have not yet healed; and the "neither war nor peace" situation, together with the "free fall" of the national currency, has created conditions conducive to any kind of "conspiracy," we reiterate the "national state of readiness" announced in our previous messages and, in view of the possibility of an "international conspiracy" against our country, bring the following points to your attention:

1 – The betrayal of foreign governments toward our country has a long history, including:

A – The **Treaty of Finckenstein**, dated 14/2/1186, corresponding to 4/5/1807, concluded between Iran and France and signed by representatives of Fath-Ali Shah Qajar and Napoleon, was completely violated by France and fell victim to the **Treaty of Tilsit**.

B – The treaties of **1921 and 1940** concluded between Iran and the Soviet Union concerning Iran's rights in the Caspian Sea were effectively annulled by the bilateral agreement between Kyrgyzstan and Russia, and Mr. Putin paved the way for reducing Iran's share.

C – The fundamental blow to our presence in Syria, as Iran's first line of defense in the region, which paved the way for subsequent blows, could not have taken place without Putin's coordination and agreement.

D – China and Russia voted in favor of all resolutions of the **IAEA Board of Governors** and the **United Nations Security Council** against our country.

E – France exerted even greater pressure than the United States during the **2015 JCPOA** negotiations, and Iran was forced to accept that country's excessive demands.

F – The **snapback mechanism** was activated by the three European countries against our country so that the six UN Security Council sanctions resolutions, which had also been signed by Russia and China, could be reinstated against Iran.

2 – The unprecedented visit of the CIA Director to Russia, as well as meetings between Trump’s special envoys, **Steve Witkoff and Jared Kushner**, with Putin and Zelensky, while Russia, after four and a half years of aggression against Ukraine, is exhausted and its priority is an honorable exit from the Ukrainian quagmire, indicate a “grand bargain” between Russia and the United States, of which the “sale of Iran” could constitute a principal component.

3 – The current situation in the **Strait of Hormuz**, which has caused fuel prices around the world to rise and consequently harms all countries, including China, in the long term, could create a major coalition against our country.

4 – Xi Jinping’s position, whereby he conditioned a meeting with Ghalibaf on the reopening of the Strait of Hormuz, the absence of any charges, and the resolution of problems with the United States and Saudi Arabia, and his refusal last week to hold a private meeting with President Pezeshkian on the sidelines of the Bishkek conference, indicates the level of bilateral relations, the priority it gives to interaction with the United States, and China’s low level of commitment toward our country.

5 – Rumors of the adoption of a resolution by the IAEA Board of Governors for the “referral again” of Iran’s nuclear file to the **United Nations Security Council**, in light of the arrangements Trump has made with Putin and Xi Jinping and Israel’s efforts, reinforce the suspicion that this time the Security Council may, at the request of the United States and the European Troika, adopt a resolution under **Article 42 of the UN Charter** authorizing a “military expedition” against Iran, while the two permanent members of the Security Council — China and Russia, supposedly Iran’s strategic allies — may refrain from vetoing such a resolution.

This is what they did regarding the military expedition against Iraq in 1990, when even the Soviet Union, Iraq’s strategic ally, voted in favor. With such a possible resolution becoming legally binding, just as George H. W. Bush, under the pretext of liberating Kuwait, formed a large coalition with NATO’s cooperation and destroyed Iraq, Trump could this time, with Security Council authorization and under the pretexts of unblocking the Strait of Hormuz and Iran’s nuclear programs, invoke the **NPT**, which Iran has accepted but allegedly violated its provisions, form a large coalition, and attack Iran.

6 – The following question can now be raised: given Iran’s international isolation, if the conspiracy to authorize a military expedition against our country through the Security Council materializes, what fate will await the Iranian people and its armed forces? And if Israel’s initiative to encourage the US Congress to formally recognize the independence of **Khuzestan and Kurdistan** succeeds, should we not take these possibilities seriously?!

7 – Since the above-mentioned conspiracy could overshadow the current diplomatic deadlock and war and lead to the disintegration of the country, and since even without such a conspiracy the continuation of the current situation would lead to the collapse of the country, national determination will be a prerequisite for confronting it.

It is self-evident that achieving such determination appears impossible under the conditions of moral collapse prevailing in society. Therefore, not only on the basis of human, moral, and national values, but also because of the clear necessity of preserving Iran, we call upon all people to put aside their grievances, return to national and moral values and identity rooted in the Iranian tradition

of chivalry, and, inspired by the culture of **ayyari** — the legacy of **Yaqub al-Layth** — prepare to confront the “existential” dangers facing our beloved Iran.

We call upon the people to establish spontaneous “**National Mutual Assistance Committees**”, to help one another, and to create defensive preparedness to defend the land of Iran against aggressors.

8 – The responsibility of the armed forces under the current circumstances, and the necessity of their joining the people, is self-evident. In this regard, particularly in view of the intensification of the regime’s crisis of legitimacy, and with the aim of strengthening the country’s defense structure, as well as serving as a preliminary example of constructive and humane interaction with the armed forces in the Iran of tomorrow and guaranteeing their professional status, **we hereby retain all commanders of the armed forces in their current command positions**, so that, by gaining legitimacy through the mutual support of the nation and the armed forces, they may stand with firm resolve against the aggression of the **United States and Israel**.

Proud Iranian Nation

Long Live Iran

National Council of Iran’s Revolution (SHAMA)
